PEAS • CORN • BEANS

Scientific Research . . .

Of ever increasing importance are the Laboratory and the Greenhouse where year around experiments can be made with the object of developing disease-free or resistant strains of peas, beans, and corn—so necessary to the production of quality seeds.

This department is being most capably handled by Dr. M. E. Anderson, Plant Pathologist, who received his degree and initial training at the University of Wisconsin at Madison, and Dr. A. L. Harrison, who has specialized in bean diseases, and whose degree was acquired at Cornell University of Ithaca, N. Y.

Western Peas and Beans

PEAS — GARDEN

***ALDERMAN (TELEPHONE)**

Vine: 40 in. dk. heavy
Pod: 4½ in. dk. ptd.

Seed: very large wrinkled
Season: 72 days

Vine—rangy, gray-green, becoming green as plant gets older, climber. Pods—7 in. flat, bladelike, green becoming splashed with red late in season. Seed—large, irregularly oval, plump, hollow centered, cream splashed with oxblood, 35 per oz. Season 85 days to green shell beans.

LAZY WIFE

Vine—climber, 4 ft. bright green. Pods—6 in. flat-oval, straight, stgls. Seed—white, round, 65 per oz. Season 73 days.

Seed Growers Since 1876

BEANS — POLE

LONDON HORTICULTURAL

Vine—compact, 4½ ft. flowers pink, climber. Pods—7 in. oval, straight, stgls. fibreless. Seed—buff with dark red markings, almost round, 55 per oz. Season 70 days.

McCASLAN

Vine—4 ft. good climber, bright green. Pods—7½ in. dark green, flat-oval, curved, stgls. Seed—white, long, kidney-shape, 80 per oz. Season 65 days.

MISSOURI WONDER

Vine—climber, large, dark green crumpled leaves, white flower. Pods—7 in. constricted, dark green, stringy, somewhat tough. Seed—flat-oval, cinnamon splashed with olive green, 65 per oz. Season 70 days.

RED SPECKLED CUT SHORT

Vine—5 ft. dull green, climber, extremely hardy. Pods—4 in. straight, round, dark green, almost stgls. Seed—mottled, purplish-gray, round, truncate, 100 per oz. Season 74 days.

SCARLET RUNNER

Vine—12 ft. rank, open, gray-green. Pods—8 in. flat oval, straight, thick, coarse and rough surface. Seed—plump, long oval, bluish-violet, mottled with blue-black, 25 per oz. Season 90 days.

STRIPED CREASEBACK

Vine—4½ ft. climber, dark green, purple stems, very hardy. Pods—7 in. medium green, round, straight somewhat stringy. Seed—plump, oval, tan with black stripes, 105 per oz. Season 70 days.

TENNESSEE WONDER

Vine—climber, green foliage, purplish stems, flowers bluish-pink. Pods—straight, gray-green, creaseback, double barreled, somewhat stringy. Seed—brownish-gray, dark gray stripes, kidney shape, 70 per oz. Season 71 days.

WHITE CREASEBACK

Vine—4 ft. dull green, climber, white flowers. Pods—6 in. slightly curved, round, med. dark green, stgls. when young. Seed—ivory white, round, oval. Season 68 days.

WHITE DUTCH RUNNER

Vine—12 ft. open, rank, gray green. Pods—8 in. flat oval, thick, straight rough, gray-green, coarse. Seed—white, plump, long oval, smooth, 20 per oz. Season 90 days.

YARD LONG

Vine—6 ft. cowpea type, rank, dark green, curly leaf. Pods—18 to 26 in. tough except when young, light green. Seed—reddish brown to tan, oblong, plump, 194 per oz. Season 70 days.

Western Peas and Beans

BEANS — POLE LIMA

CARPINTERIA POLE LIMA

Vine—8 to 10 ft. bright dark green. Pods—5½ in. curved flat, 3 to 5 beans. Seed—large, 25 per oz. green tinted to creamy white, smooth, as plump as Ideal Pole Lima, semi-circular. Season 88 days.

CHALLENGER

Vine—12 ft. very rank dark green, gray-green markings on leaf. Pods—4½ in. straight backed, thick, plump, 3 to 4 beans. Seed—potato type, dimpled, green tinted, 35 per oz. Season 90 days.

FLORIDA BUTTER

Vine—8 to 10 ft. bright dark green. Pods—3½ in. curved, flat, 2 to 4 beans. Seed—small, 90 per oz. cream streaked with deep violet and purplish-brown. Season 90 days.

GIANT PODDED

Vine—10 to 12 ft. rank, good climber, dark green. Pods—6 to 8 in. flat, very wide and curved, 3 beans. Seed—very large, flat, smooth, white, 20 per oz. Season 90 days.

IDEAL POLE LIMA

Vine—8 to 10 ft. dark bright green. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—large, 25 per oz. smooth, more plump than common lima or Burpee Bush, creamy white, semi-circular in shape. Season 88 days.

KING OF THE GARDEN

Vine—8 to 10 ft. bright dk. green. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—large, 25 per oz. green tinted to creamy white, smooth, as plump as Ideal Pole Lima, semi-circular. Season 88 days.

LARGE WHITE LIMA

Vine—8 to 10 ft. bright dark green. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—large, 25 per oz. green tinted to creamy white, smooth, as plump as Ideal Pole Lima, semi-circular. Season 88 days.

LEVIATHAN

Vine—8 to 10 ft. dark green, good climber. Pods—5½ in. curved, flat, 3 to 5 beans. Seed—elongated, flat, white and smooth, 25 per oz. Season 90 days.

Seed Growers Since 1876

BEANS — POLE LIMA

SIEBERTS

Vine—8 to 10 ft. med. dark green, rank, good climber. Pods—5½ in. 3 to 5 beans, flat curved. Seed—large, 25 per oz. white fairly smooth and very flat. Season 90 days.

SIEVA

Vine—8 to 10 ft. rank, green foliage, good climber. Pods—3 in. curved, flat, 2 to 4 beans. Seed—small, 90 per oz. white, flat, smooth. Season 75 days, continuous bearer.

WILLOW LEAF

Vine—bright green, narrow, pointed leaves, good climber. Pods—3½ in. curved, flat, 3 to 4 beans. Seed—small, 95 per oz. white, smooth. Season 75 days.

WOOD'S IMPROVED

Vine—8 ft. med. dark green, good climber. Pods—3½ in. curved, flat, 2 to 4 beans. Seed—intermediate in size, 60 per oz. white, flat, smooth. Season 78 days.

BEANS — BUSH LIMA

BURPEE BUSH

Bush—compact, runnerless, dark green, 20 in. Pods—5 in. flat, curved, 3 to 4 beans. Seed—large, 25 per oz. flat, wrinkled, dingy white with brownish lines radiating from hilum. Season 75 days to green beans.

BURPEE IMPROVED

Bush—compact, erect, runnerless, dk. green, 20 in. Pods—5½ in. curved, flat but less so than Burpee Bush. 3 to 5 beans. Seed—large, 23 per oz. creamy white, somewhat flat, dimpled. Season—75 days to green beans.

DREER'S BUSH

Bush—18 in. stocky, runnerless, narrow, dk. gray-green leaf. Pods—4¾ in. straight backed, thick, plump, 2 to 4 beans. Seed—potato type, green tinted to creamy white, dimpled, 26 per oz. Season 80 days.

FORDHOOK

Bush—compact, erect, 19 in. gray-green. Pods—5 in. straight to recurved, thick, plump, 3 to 5 beans. Seed—potato type, dimpled, greenish-white, 21 per oz. Season 75 days to green beans.

Western Peas and Beans

BEANS — BUSH LIMA

HENDERSON BUSH

Bush—erect, runnerless, dk. glossy green, 16 in. Pods—3½ in. curved, flat, dk. green, 3 to 4 beans. Seed—small, 90 per oz. white, flat. Season 65 days to green beans.

JACKSON WONDER

Bush—erect, runnerless, 16 in. dk. glossy green. Pods—3½ in. flat, curved, 2 to 4 beans. Seed—small, 75 per oz. flat, cinnamon splashed with deep violet. Season 65 days.

McCREA'S LIMA

Bush—erect, runnerless, dk. glossy green, 16 in. Pods—3¼ in. curved, thick round, oval in cross section. Gray green, 3 to 5 beans. Seed—potato type, wrinkled, green tinted, truncate, 43 per oz. Season 75 days to green beans.

WOOD'S PROLIFIC

Bush—erect, runnerless, 16 in. dk. glossy green. Pods—3½ in. flat, curved, 2 to 4 beans. Seed—small white, flat, 75 per oz. Season 65 days.

SWEET CORN

ADAMS EXTRA EARLY (First of All)

Ears: 6 to 7 in. long with 12 to 14 rows of white kernels, fairly sweet, become smooth when ripe. Stalk: 5 to 6 ft. Season: 80 to 83 days, hardy, used largely in the South.

***BURBANK BANTAM**

Ears: 7 to 8 in. long, 12 to 14 rows of deep yellow kernels. Equal in flavor to 8 row Bantam. Stalk: 5 to 6 feet. Season: 80 to 85 days. Excellent for whole kernel pack or market garden use. Gaining favor.

***BURBANK BANTAM TOP CROSS HYBRID**

Ears: 8 to 9 in. long, 12 to 14 rows of well colored yellow kernels. Fine flavor. Stalk: 5 to 6 ft. thrifty, vigorous. Season: 86 to 90 days. Nice uniformity, resistant and hardy. Is repeating where tried by canners and market gardeners.

***CHAPMAN'S GOLDEN**

Ears: 8 in. long, 10 to 14 rows of medium gold kernels. Stalks: 5 to 6 ft. sturdy, similar to Golden Cross stalk. Season: 86 to 90 days. Slightly earlier than Golden Cross. New corn, well received.

Seed Growers Since 1876

SWEET CORN

COUNTRY GENTLEMAN

Ears: 7 to 8 in. long, cob small covered with long, slender white kernels, without row formation. Stalk: 6 to 7 feet. Season: 95 to 105 days. Slightly later than Stowells Evergreen. An especially fine strain with excellent quality, selected for evenness of maturity.

CROSBY, MINNESOTA 287

Ears: 6 to 7 in. long, 16 rows of short, sweet, tender, white kernels. Stalk: 5 to 5½ ft., ears well up, taller stalk than Maine Crosby. Season: 80 to 84 days, selected for earliness and uniformity. A well known strain for canning.

EARLY EVERGREEN

Ears: 8 in. long, 14 to 18 rows of sweet, white, tender kernels. Stalk: 6 to 7 feet. Season: 90 to 95 days. A good white corn especially for the more northern districts. Selected and bred toward better uniformity.

Fertilizing the Ear

GOLDEN BANTAM

Ears: 6 to 7 in. long, 8 rows of rather broad, deep yellow kernels. Flavor exceptionally rich. Stalk: 4 to 5 feet. Season: 80 to 83 days. A strong hardy strain, approved by canner and market gardener for its quality and yielding ability.

***GOLDEN CROSS HYBRID**

Ears: 8 to 10 in. long, 10 to 14 rows of light golden kernels. Fine flavor and quality. Stalk: 5 to 6 feet, dark foliage. Season: 85 to 90 days. Very uniform in both ear size and maturity. A popular hybrid produced by crossing pure lines of Purdue Bantam and Purdue Inbred No. 51. Selected toward earliness.

GOLDEN or BANTAM EVERGREEN

Ears: 9 in. long, 12 to 14 rows of kernels, general appearance of Stowells except is yellow color. Flavor better than Stowells. Stalk: 6 to 7 ft. Season: 85 to 90 days.

GOLDEN GIANT

Ears: 7 to 8 in. long, 10 to 14 rows of kernels, pointed and usually smaller than Bantam. Stalk: 4 to 5 feet. Season: 80 to 85 days. A cross between Howling Mob and Golden Bantam.

SWEET CORN

GOLDEN SUNSHINE

Ears: 6 to 7 in. long, 10 to 12 rows of light yellow kernels. Stalk: 4 to 5 feet. Season: 72 to 76 days. For market and home gardeners.

HOWLING MOB

Ears: 6½ to 7 in. long, 12 to 14 rows of deep, medium size white kernels, sweet and well flavored. Stalk: 5 to 6 feet. Season: 86 to 92 days, a fine large eared white sort of mid-season maturity.

NARROW GRAIN EVERGREEN

Ears: 8 to 9 in. long, 18 to 20 rows of deep, narrow white kernels. Fine quality. Stalk: 6 to 7 ft. Same appearance as Stowells. Season: 95 to 105 days, slightly earlier than Stowells. Carefully selected for uniformity and yield. A superior strain.

SWEET CORN

Examining for Silk Emergence Under Cellophane Ear Shoot

SIXTY DAY GOLDEN

Ears: 6 to 7 in. long, 10 to 12 rows of golden kernels, ears slightly pointed. Stalk: 3 feet. Season: 60 days. Good quality, very early, and repeating with market gardeners. A cross between Golden Bantam and 60 Day White. Plant on best soils.

SIXTY DAY WHITE

Ears: 6 to 7 in. long, 10 to 12 rows of white kernels of good quality. Stalk: 3 feet. Season: 60 days. Selected from many early strains of white corn because of its quality and satisfactory yield when planted in good soil.

STOWELLS EVERGREEN

Ears: 8 to 9 in. long, 16 rows of deep white kernels of good quality and sweetness. Stalk: 7 ft. sturdy growth. Season: 95 days to 105 days. Very popular late sort. This strain bred for a slightly more narrow kernel and better uniformity than the old strains. Approved by canners and market gardeners.

WHIPPLES EARLY YELLOW

Ears: 7 to 8 in. long, 12 to 16 rows of broad deep kernels. Very sweet, fine quality. Stalk: 6 feet. Season: 78 to 82 days. In demand by market gardeners.

SEEDS OF QUALITY

PEAS

The breeding and growing of peas for seed is a business in which we have specialized for 61 years. That experience is worth something; it is back of every bag of seed we send out—and it is your assurance of quality.

WE GROW PEAS ONLY IN THE WEST.

BEANS

Do best in the West, where the long sunshiny days, clean soil, and life-giving waters of irrigation combine to make an ideal situation for the development of disease resistant strains.

WE GROW BEANS ONLY IN THE WEST

SWEET CORN

Northern-grown sweet corn seed is famous for hardiness and vitality. It makes a beautiful sample and does well in any climate.

WE GROW THE BULK OF OUR CORN IN MINNESOTA AND THE BALANCE IN SELECTED CENTRAL WESTERN TERRITORY.
